

# Infinity Voted Best Health Club!

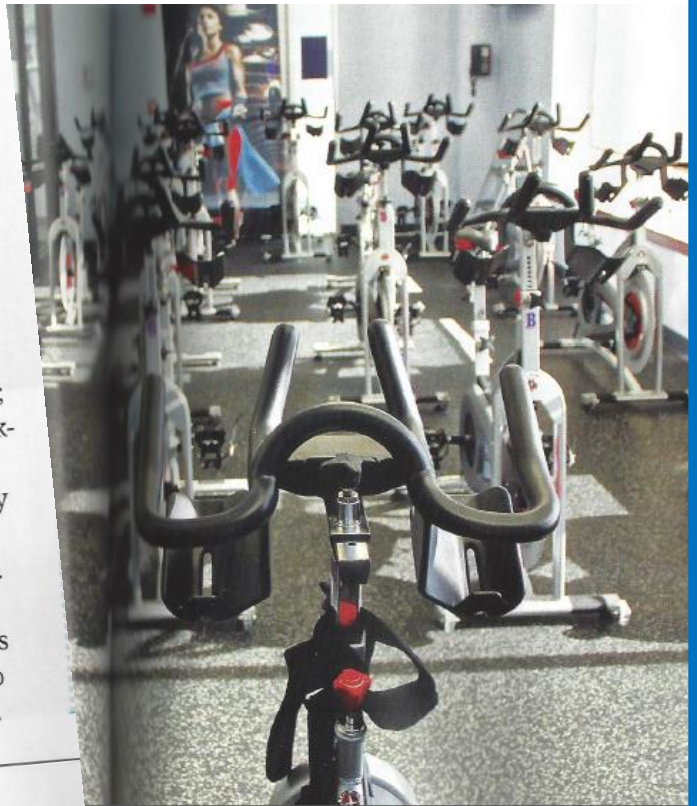

AS SEEN IN  
Northshore Magazine

HOT IN THE HOOD

## INFINITY FITNESS CENTER

→ A bit of a hidden gem, North Andover's Infinity Fitness Center scores high marks on many counts, including: a spacious workout room and multiple classrooms; very comfortable spinning bikes and studio (and exceptionally great music); equipment that is in good working condition with lots of options and plenty of weights to go around; and a very hot dry sauna with a wood bucket of water for making steam (something not often seen in a gym). The whole facility is very clean and flooded with natural light. Gym wipes stations are everywhere. Massage services and personal and small group training sessions are available, as is a nice little café and juice bar, a small pro shop, and impossibly plush white towels.
